

KHUSHI GUPTA

"ASPIRING FULL STACK WEB DEVELOPER | FRONTEND DEVELOPER"

+91 99535-27533 | khushii2556@gmail.com | Ghaziabad, Utter Pradesh |
www.github.com/Khushi-gupta-0887

CAREER OBJECTIVE

- I am an aspiring full stack web developer with knowledge of front-end (HTML, CSS, JavaScript, Bootstrap, Tailwind) and basic knowledge of back-end technologies (Node.js, MongoDB, SQL).
- I am looking for an opportunity where I can learn from real-world projects, grow my skills, and become a professional developer.

WORK EXPERIENCE

Web Intern, Mylit Technology

June 2024 – dec 2024

- Worked on updating existing websites using HTML5 and CSS3, focusing on layout improvements and design fixes.
- Designed social media posts, banners, and basic UI components using Canva for ongoing client projects.

EDUCATION

Bachelor of Computer Application(BCA) | Modern Degree College, Duhai Ghaziabad | 2025
12th pass with 72% from UP Board | Bal Jagat SR SEC School, Raj Nagar Extention | 2022

PROJECTS

1. Interactive Educational Website(Frontend)

Designed and developed a Responsive Educational platform landing page using HTML, CSS. Focused on clean UI/UX. No backend functionality implemented.

2. Calculator App

A simple arithmetic calculator built using HTML, CSS, and JavaScript.

3. Razorpay UI Clone

Cloned Razorpay's Navbar and carousel UI using Tailwind CSS and HTML for practicing design.

4. Quiz App

A multiple-choice quiz app using JavaScript for interactivity.

SKILLS

- Proficient in front-end development using **HTML5, CSS3, JavaScript(basic)**.
- Familiar with responsive design frameworks like **Bootstrap** and **Tailwind CSS**
- Basic understanding of **Node.js** and **Express.js** for server-side development
- Basic understanding of **MongoDB** and **SQL** databases
- Can build basic CRUD applications and REST APIs
- Interested in building dynamic and responsive web applications
